

2022 Volume 23 Issue 2

**Table of Contents:**

1. Word Associations and Depression in Adolescents  
**Hyeon Cho**
2. Heritage Speakers' Phonological Memory:  
Beyond Sub-Lexical Level of Sound Perception  
**Sun-Young Lee**
3. A Longitudinal Study on the Effect of Length of Residence on Chinese Adults'  
Perception and Production of English /l-/i/  
**Ying Li**
4. Lexicon and Grammar in Bilingual Individuals with Alzheimer's Disease and  
Parkinson's Disease: A Comparative Review  
**Miseon Lee and Eunkyoo Lee**

**Journal of Cognitive Science** is an official journal of the *International Association for Cognitive Science (IACS, <http://www.cogsci.org.cn/iacs>)* and the *Institute for Cognitive Science at Seoul National University*. It is published quarterly by the *Institute for Cognitive Science at Seoul National University*, located in Seoul, Korea. The Association currently consists of member societies of different countries such as Australia, China, Japan, Korea, and European Union. However, paper submission by anyone in the whole world is welcome at any time. Its main concern is to showcase research articles of highest quality and significance within the disciplines of cognitive science, including, but not limited to, philosophy, psychology, linguistics, artificial intelligence, neuroscience, aesthetics, anthropology, and education, insofar as it is deemed to be of interest to those who pursue the study of mind. In particular, we would like to encourage submissions that cross the traditional disciplinary boundaries.

### **Indexing:**

Our articles are indexed in the following databases:

- SCOPUS
- EBSCO
- Google Scholar
- ESCI (Emerging Sources Citation Index, Thomson Reuters)
- KCI (Korean Citation Index)

**Aims & Scope:**

The Journal of Cognitive Science (JCS) is published quarterly on 31 March, 30 June, 30 September, 31 December (founded in 2000) as the official journal of International Association for Cognitive Science (IACS) by the Institute for Cognitive Science at Seoul National University. It is a SCOPUS, ESCI, EBSCO, KCI journal. It aims to publish research articles of the highest quality and significance within the disciplines that form cognitive science, including philosophy, psychology, linguistics, artificial intelligence, neuroscience, anthropology, and education for Interdisciplinary Journal. Submissions that cross traditional disciplinary boundaries in either themes or methods are especially encouraged. AI-associated Cognitive Science will be newly reinforced and papers in this area are encouraged to be submitted.

## **Editorial Board:**

- Editor-in-Chief:  
Chungmin Lee, Seoul National University
- Editors:  
Cameron Buckner, University of Houston  
Sook-Whan Cho, The State University of New York at Stony Brook, Songdo  
Alberto Greco, University of Genova  
Koiti Hasida, University of Tokyo  
Kyoung-Min Lee, Seoul National University  
AI Assistant Editor: Taikyeong Jeong, Hallym University

## **The Editorial Board and Advisory Editorial Board:**

Hojjat Adeli, The Ohio State University  
Kenneth A. Augustyn, Michigan Technological University  
Bruno G. Bara, University of Turin  
Ned Block, New York University  
David Chalmers, Australian National University  
Ivan Enrici, University of Turin  
Peter Gärdenfors, Lund University, Sweden  
Merrill Garrett, University of Arizona  
Dedre Gentner, Northwestern University  
Etsuko Harada, University of Tsukuba, Japan  
Hidehito Honda, Otomon Gakuin University  
Joonhwan Lee, Seoul National University  
Tania Ionin, University of Illinois at Urbana Champaign  
Kiwako Ito, The University of Newcastle (UON)  
Hong-Gee Kim, Seoul National University  
Kihyeon Kim, Seoul National University  
Gary Geunbae Lee, Pohang University of Science and Technology

Chen Lin, Chinese Academy of Science  
Charles Ling, Western Ontario University, Canada  
Edouard Machery, University of Pittsburgh  
Asifa Majid, University of York  
Klaus Manizer, Technical University of Munich  
Tetsuro Matsuzawa, Kyoto University  
Reiko Mazuka, Duke University  
Louise McNally, Pompeu Fabra University  
Yasuhiro Shirai, Case Western Reserve University  
Hua Shu, Beijing Normal University  
Peter Slezak, The University of New South Wales  
Hyeon-joo Song, Yonsei University  
Li-Hai Tan, Shenzhen Institute of Neuroscience  
Paul Thagard, University of Waterloo, Canada  
Markus Werning, Ruhr University Bochum  
Byoung-Tak Zhang, Seoul National University

**Submission Guidelines:**

All submissions must be in English, written clearly and in sufficient detail that referees can assess the merits of the work. Papers should be no longer than 10,000 words and should conform to the JCS style guide. (JCS style guide is distributed, if requested, via email.) Papers will be received anytime and processed as promptly as possible. ***All authors should send an electronic copy (MS word) to [j-cs@j-cs.org](mailto:j-cs@j-cs.org).*** Each submission will be sent to two or three reviewers. The reviews will be forwarded to the authors, who will then have an opportunity to make revisions if warranted.
